

## ECE 560 Project Proposal Guidelines

Spring 2024

Instructor: Dr. Liudong Xing

A written and well-organized proposal must be submitted by **February 23 (Friday)**. The proposal should be one ~ two pages typed on the standard 8 1/2 by 11 paper. The proposal should clearly describe the project to be undertaken, including

- Project Title: indicate the tentative title of your project.
- Project Topics: indicate the topics to be covered. You may select one of the suggested project topics, or you may devise your own comparable project.
- Work to Be Performed: describe any investigation, development, analysis, simulation, or experimentation to be conducted.
- Expected Results: describe any results you expect to achieve.
- Relevant Literature: include the literature you find so far that are relevant to your project in a reference list and cite them in your proposal. Of course, you may add more later if necessary as project proceeds.
- Work distribution: describe the essential responsibilities of each team member.

A soft copy of your proposal in Microsoft Word or PDF is required to submit to the instructor on or before the due date. Please name your proposal using the format of **ECE560-Proposal-Team#** (e.g., **ECE560-Proposal-Team1.pdf**). The proposal will be reviewed and must be approved by the instructor.
